Footnotes:

- The increase in investment properties was mainly due to the increase in fair value of investment properties.*
- The financial derivative assets and financial derivative liabilities relate to the fair value of the non-deliverable forwards ("NDF") and interest rate swaps ("IRS"). The NDF is to hedge the currency exposure on the non-RMB denominated loans and the IRS is to hedge the variable rate borrowings.*
- The decrease in cash and cash equivalents as at 31 December 2014 was mainly due to the repayment of interest-bearing borrowings during 2014.*
- The interest-bearing borrowings comprises (i) unsecured term loan facilities of \$568.0 million drawn down by the Trust to partially finance the acquisition of the properties in CRCT and utilise as working capital and (ii) RMB secured term loan facility of RMB495.0 million (\$104.9 million) to finance CapitaMall Grand Canyon.*

The decrease was mainly due to repayment of CapitaMall Grand Canyon and CapitaMall Anzhen RMB denominated interest-bearing borrowings, partially offset by the additional loans drawn down at Trust level for distribution payment to Unitholders.
- The increase in deferred tax liabilities was mainly due to additional provision on increase in fair value of investment properties.*

4 Whether the same accounting policies and methods of computation as in the issuer's most recent audited annual financial statements have been complied

The Group has applied the same accounting policies and methods of computation in the financial statements for the current reporting period as that of the audited financial statements for the year ended 31 December 2014, except for the adoption of accounting standards (including its consequential amendments) and interpretations applicable for the financial period beginning 1 January 2014.

The following Financial Reporting Standards ("FRS") (including its consequential amendments), which became effective for the Group's financial period beginning 1 January 2014 are:

FRS 27 Separate Financial Statements

FRS 32 Financial Instruments: Presentation
FRS 36 Impairment of Assets

FRS 112 Disclosures of Interests in Other Entities

As FRS 112 is primarily a disclosure standard, the adoption would result in more disclosures being made in the Group's financial statements in respect of its material non-controlling interest.

The Group does not expect any significant financial impact on its financial position or performance from the adoption of these amendments to FRS.

4Q 2014 vs 4Q 2013

In RMB terms, gross revenue increased by RMB49.7 million, or 24.5% higher than 4Q 2013. This was mainly due to new contribution from CapitaMall Grand Canyon of RMB39.0 million in 4Q 2013 and rental growth from the other multi-tenanted malls, which was offset by lower revenue at CapitaMall Wuhu where tenancy adjustments are being carried out to achieve stronger positioning and better trade mix. In SGD terms, gross revenue for 4Q 2014 increased by \$11.4 million, or 27.7% as compared to 4Q 2013 mainly due to stronger RMB against SGD.

Property expenses for 4Q 2014 increased by \$3.7 million, or 23.7% as compared to 4Q 2013. This was mainly due to the inclusion of property expenses from CapitaMall Grand Canyon and property expenses from CapitaMall Minzhongleyuan since its reopening in May 2014.

Management fees payable to the manager were 31.0% higher than 4Q 2013. This was due to higher net property income and deposited properties, as a result of the inclusion of CapitaMall Grand Canyon.

Finance income earned in 4Q 2014 was 34.2% lower than 4Q 2013 mainly due to lower fixed deposit balances placed with financial institutions.

Finance costs in 4Q 2014 increased by \$2.1 million over 4Q 2013. This was mainly due to the RMB denominated loans at CapitaMall Grand Canyon which has a higher borrowing cost.

Taxation in 4Q 2014 increased by \$0.4 million over 4Q 2013. This was mainly due to due to higher profit achieved in 4Q 2014 compared to 4Q 2013.

FY 2014 vs FY 2013

In RMB terms, gross revenue for FY 2014 increased by RMB192.6 million, or 24.2% over FY 2013. This was mainly due to new contribution from CapitaMall Grand Canyon of RMB138.1 million in FY 2014 and rental growth from the other multi-tenanted malls, which was offset by lower revenue at CapitaMall Wuhu where tenancy adjustments are being carried out to achieve stronger positioning and better trade mix. In SGD terms, gross revenue increased by \$43.2 million, or 27.0% compared to FY 2013 due to stronger RMB against SGD.

Property expenses for FY 2014 increased by \$13.9 million, or 24.3% as compared to FY 2013. This was mainly due to the new inclusion of property expenses from CapitaMall Grand Canyon.

Management fees payable to the manager were 28.8% higher than FY 2013 mainly due to higher net property income and deposited properties, as a result of the inclusion of CapitaMall Grand Canyon.

Finance income earned in FY 2014 decreased by \$0.3 million over FY 2013 mainly due to lower fixed deposit balances placed with financial institutions.

9 Variance between the forecast or prospectus statement (if disclosed previously) and the actual results

CRCT has not disclosed any forecast to the market.

10 Commentary on the competitive conditions of the industry in which the Trust and its investees operates and any known factors or events that may affect the Trust and its investees in the next reporting period and the next 12 months

China's gross domestic product increased 7.3% in fourth quarter of 2014 and 7.4% for FY 2014 to RMB63.6 trillion. Retail sales for FY 2014 grew 12.0% year-on-year to RMB26.2 trillion. Urban disposable income per capita and expenditure per capita grew 9.0% and 5.8% year-on-year respectively. The Chinese Academy of Social Sciences, China's official think-tank, has forecasted the 2015 GDP growth to be around 7.0%.

With the government's strong emphasis on quality and sustainable growth, we see overall stability in the economy and labour market in FY 2014. Going forward, greater focus will be on structural reform and driving domestic consumption. We can also expect to see moderate growth rate to be the new standard with the government placing less emphasis on rapid growth. With the focus on driving domestic consumption and maintaining long-term stability, CRCT remains positive on China's long-term outlook.

Beijing Retail Market Update

In the first nine months of 2014, Beijing's economy grew 7.3%. From January to November 2014, retail sales increased 8.6% year-on-year to RMB820.7 billion. Urban disposable income per capita grew 9.9% and expenditure per capita grew 6.4% year-on-year for the same period.

Leasing demand from food and beverage retailers continued to expand actively in 3Q 2014. Fast fashion and mid-end luxury retailers were also expanding and entering new markets to capture the growing middle class sector. Two new malls, Lippo Plaza BHG Mall, located in Daxing district and Roosevelt Shopping Centre, located in Tongzhou district were opened in 3Q 2014, adding 147,000 sq m of retail space into the market. In 3Q 2014, the average ground floor rent in mid to high-end malls increased by 0.5% quarter-on-quarter.

In 4Q 2014, three major projects, Paradise Walk in Chaoyang district, Wanda Plaza in Tongzhou district and Inter IKEA Shopping Centre in Daxing districts have opened. Despite the addition of the new supply, no major fluctuations to the rents and vacancy are expected due to the healthy commitment rates. (Source: Colliers International and Savills)

Shanghai Retail Market Update

In the first nine months of 2014, Shanghai's economy grew 7.0%. For the same period, urban disposable income per capita grew 9.1% and expenditure per capita grew 9.8% year-on-year. From January to November 2014, retail sales increased 8.7% year-on-year to RMB795.9 billion.

**CAPITARETAIL CHINA TRUST
UNAUDITED FINANCIAL STATEMENT & DISTRIBUTION ANNOUNCEMENT FOR THE YEAR ENDED
31 DECEMBER 2014**

Leasing demand from fashion, health, beauty and food and beverage retailers were strong. Both domestic and international retailers were keen to increase their market penetration through opening stores in prime locations. There was no major new supply entering the market in the first nine months of 2014. Average rent for mid to high-end shopping centres increased marginally by 1.0% quarter-on-quarter.

New malls that were opened in 4Q 2014 included Chamtime Plaza, Crystal Galleria, Shanghai Arch Walk and Yangguang Centre. Despite the new supply, pressure on rent is expected to be short term as demand for prime location remains high. (Source: Colliers International)

Wuhan Retail Market Update

In the first nine months of 2014, retail sales grew 12.3% year-on-year to RMB314.7 billion.

The improving purchasing power, continuous improvement of the transport system and supportive government policy has attracted many retailers to Wuhan. Leasing demand remains robust in 3Q 2014 with retailers from fashion, food and beverage and children's care sectors expanding actively. Two major retail malls were opened in 3Q 2014, Oceanwide Mall and Inter IKEA Wuhan. The vacancy rate for mid to high-end shopping centre increased slightly by 0.3 percentage points to 9.3% and rent decreased 3.5% quarter-on-quarter by end 3Q 2014.

Wuhan's retail sales growth has outperformed national average for the last few quarters and this strong purchasing power is expected to stay in the short to medium term. We will be seeing additional new projects opening in the coming quarters in the suburban and outskirt areas that may have an impact on the overall rent as these areas typically charge lower rents.
